The complexity of this cava makes it a perfect match for any dish & the most exquisite and elaborates cuisine. Ideal cava to surprise someone on a special occasion.

More than 40 months.

Cava made with the utmost winemaking techniques and the greatest care. The de-stemmed grapes undergo cold soak for several hours in order to maximize the primary aromas. One part of the must is then fermented in stainless steel tanks at a very low temperature between 12–14 °C The other part undergoes 1st fermentation in new French & Baltic oak barrels with a maturation on fine lees and periodical “bâtonnage”. The coupage wine obtained undergoes 2nd fermentation in the bottle according to the traditional “Méthode Champenoise”. We employ a strain of yeast which increases mannoprotein content in the cava in order to achieve velvety and creamy mouth feel. The cava ages in the silence of our cellar on its lees
